

# Inspiroz Services

— OVERVIEW

Inspiroz was co-founded by a former founding school leader and an experienced IT leader, we are rooted in being the best technology partner for schools of all sizes

Inspiroz team members are technology experts with a passion for supporting schools to maximize the impact technology has on instruction and operations

We partner with you and customize our engagement to best suit the needs of your schools, students and communities.

PARTNERSHIP

# Technology Enabled

LEARNING FRAMEWORK

At Inspiroz, we believe that technology can be used to:

1. Amplify and catalyze teaching and learning
2. Expand the boundaries for teaching and learning beyond the school building and school day
3. Support data-driven instruction and decision making
4. Create opportunities to build stronger relationships between teachers and students
5. Create more opportunities to differentiate and personalize learning for students

We believe that in order to achieve these outcomes, schools must have :

- a. Dependable technology infrastructure
- b. Excellent technology support
- c. Technology architecture to support data-driven instruction and decision-making.
- d. Intentionality around instructional technology and tools architecture and usage
